New Delhi, India

SUMMARY

Equipped with 4+ years' experience in healthcare data operations and predictive analytics, with expertise in Power BI, SQL, and statistical modeling. Ability to turn complex datasets into actionable insights, optimize operations, and support decision-making.

EDUCATION

Hindu College, University of Delhi — New Delhi, India
Master of Operational Research (MOR)**; CGPA:** 7 — **June 2023 – May 2025**
Relevant Coursework: Optimization Techniques, Econometrics, Financial Modeling, Statistical Inference

Indira Gandi National Open University (IGNOU) — New Delhi, India
Bachelor of Computer Application (BCA)**; CGPA:** 7.2 — **June 2020 – May 2023**

SKILLS

- **Languages/Libraries:** Python (Pandas, NumPy, Seaborn, Scikit-Learn, Matplotlib), SQL, VBA
- **Tools/Software:** Excel Advanced, Power BI, Tableau, MS-Office, MySQL, Jupyter Notebook, VS Code
- **Soft Skills:** Communication, Problem-solving, Critical Thinking, Leadership

WORK EXPERIENCE

Research Team Leader – Data Operations | Max Healthcare | Saket, New Delhi — **Sept 2019 – Sept 2023**

- Performed and maintained **data collection, cleaning, and validation** using **Excel** for a large-scale NCD surveillance project to ensure data integrity and governance through rigorous **QC/QA processes**.
- Prepared and presented monthly **Excel-based data quality reports** to the central team and funding stakeholders.
- Coordinated across teams to deliver **optimal solutions** to get insights for real-time decision-making.
- Developed standardized **workflows, improved 10% data consistency** and reporting efficiency.
- Manage & Guide research team and participants to improve performance of the team.
- Streamlined field operations by **troubleshooting technical** and **logistical challenges**, **reducing cost by 5%**.
- Managed **data transfer** to cloud servers, Oversaw **inventory** and **stock supplies**.

PROJECTS

A/B Testing & Regression Analysis of Facebook vs. Google Ad Campaigns — Project Link

- ***Conducted A/B testing and hypothesis analysis*** *on 1,000 daily ad performance records, confirming Facebook ads outperform AdWords in conversions* ***(t = 26.77, p < 0.001)****; supported data-driven budget shift toward high-ROI channels.*
- ***Identified ROI and correlation via heatmaps and time series****, identifying Facebook's* ***28%*** *higher average conversion rate and superior ROI consistency; drove insights into cost-per-click efficiency and seasonal campaign performance.*
- ***Built linear regression model (R^2 = 81.52%)*** *to predict Facebook ad conversions from clicks with MSE of* ***3.88****; enabled precise forecasting of campaign outcomes and optimized spend allocation across marketing channels.*

Churn Prediction from Flight Customer Satisfaction for Targeted Retention Strategies — Project Link

- *Built* ***Random Forest classifier*** *achieving* ***94.6% accuracy****, significantly outperforming Logistic Regression (81.4%) on data of 25k passengers through feature engineering of 14+ service attributes (boarding, food, booking).*
- *Performed EDA identifying* ***strong negative*** *relationships between service ratings and churn; online boarding* ***(–0.50),*** *inflight Wi-Fi* ***(–0.28),*** *leg room service* ***(–0.35)*** *revealing as strongest churn drivers via heatmaps; LR coefficients.*
- *Recommended data-driven* ***retention strategies*** *helping prioritize improvements for* ***at-risk customer segments****.*

Sales Report Dashboard — Project Link

- *Developed* ***interactive Power BI dashboards*** *with visualizations showcasing* ***daily/monthly order trends,*** *Sales by* ***category/size****, and* ***top 5 / bottom 5*** *performing pizzas, validated with* ***SQL Queries.***
- *Identified the top 5 best-selling pizzas, contributing to* ***$20M*** *in sales, and achieved 13.2% month-over-month sales.*
- *Performed* ***ETL and EDA*** *using* ***DAX Queries*** *and built* ***KPIs*** *to provide end-to-end business intelligence solutions.*

CERTIFICATES

Introduction to Data Science – Cisco (Issued : 2025) | Certificate
Data Analytics Essentials – Cisco (Issued : 2025) | Certificate
Python Basic – HackerRank (Issued : 2024) | Certificate
